STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the present claims are allowable over the closest prior art to Lee et al. (US 2003/0134153). Lee et al. fails to teach or suggest the use of a circumferentially textured AlMg/NiP substrate as is now required by all of the claims. Lee et al. is directed to the problem of using glass substrates in magnetic recording media and achieving suitable OR_{MRT} values (see paragraph 13 for example). Thus, there is no motivation to substitute a AlMg/NiP substrate for the glass substrate taught by Lee et al. The reference teaches away from making such a substitution.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Holly Rickman whose telephone number is (571) 272-1514. The examiner can normally be reached on Monday-Friday 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul J. Thibodeau can be reached on (571) 272-1516. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
